

Dear Parents/Carers,

At Nower Hill we have a number of online systems that assist you and your child in their learning in different ways. We hope this letter clarifies some of the points that have been raised and hope that you find this information useful.

Show my homework/Satchel

This is the platform that shares homework tasks with you and your children. Work can be submitted to the teacher on this platform but only if the teacher requests it and the task should state what the method of submission should be. There is an app that can be downloaded to mobile devices to make access easier for both parents and students.

Log in details: Your child should use their short username and usual password. As a parent you can create your own user account to which you can add your children's accounts via a pin code which can be requested through the homework@nowerhill.harrow.sch.uk email.

G-Suite

This is the platform that shares resources and communicates important information to your children. It contains message boards for the students and also their google classrooms and google sites. Work will be posted on the relevant google classroom for your child if they are self isolating or are learning remotely - more information on this will be on our website under the heading Covid response.

The whole school message board and the Year Group specific message board should both be checked by students daily who are self isolating.

Log in details: Students should use their long username (short username followed by @nowerhill.harrow.sch.uk) and their usual password. Currently, there is no parent login for this system and the resources can only be accessed using a student school google account. All personal google accounts should be logged out.

SIMS parentapp

This is the app that communicates from our data system to you regarding your children's attendance and conduct points.

Log in details: You have recently been sent an email to create your own account. Please email admin@nowerhill.harrow.sch.uk for further assistance, and you will be redirected accordingly.

In the near future we will be writing to you to share the details of how we are going to conduct individual Parents' Evenings online and we would be very grateful if you could watch out for this communication.
